Europa Console Vanity

I have looked at the market orientation and recent style trends and what I see is going towards "functional modern".

Elegant in design, clean lines, and a sense of strength "Europa" encompasses all these qualities and more.

Overall 34"w. 22"d. and 34" tall

(shown in W.Bze)
The sink is carved out of a solid piece of stone 6" thick giving it style and consistency. The metal frame it's mounted on gives it a sturdy and yet simple elegant look.

.Suggested retail \$ 2,835.00
